**Great news! High Speed Fiber Internet will be available soon in your neighborhood!**

CMS Internet is bringing fiber optic internet service to your area. You may have already seen our fiber team in your neighborhood.

Fiber internet service has many advantages over other types of internet service, including cable, wireless, and DSL. Not to mention, we are a 100% locally owned and operated company and we don't outsource our technical support to other countries.

Some of the advantages include:

- lowest latency (Quickest response times)
- highest bandwidth capacities (Up to 10Gbps or 10,000Mbps)
- highest reliability
- immune to power surges (it communicates using light)

The following packages are available:

- 100mbps down x 10mbps up for \$49.95/month
- 300mbps down x 30mbps up for \$74.95/month
- 1000mbps (1Gigabit) down x 50mbps up for \$99.95/month

Installation is \$99.00, or free with a 1-year commitment. We also offer unlimited local and long-distance telephone service for \$24.95/month when bundled with any of our internet packages.

If you would like to get scheduled for this service, please call or email us today.

**Not sure about switching to CMS High Speed Fiber Internet Service? Don't take our word for it, look at what our customers are saying:**

CMS is not only the fastest internet service available they are also a great company to work with. I was able to make the switch and set up automatic payments easily by calling and speaking directly with their team. It has been quite a refreshing change from the cable company I was previously receiving internet from. Hands down a premium service at an excellent price. Best part about it, I have not had any disruptions. Not even during our biggest natural disaster in thirty years.

Bob Elmore  
Mt. Pleasant, MI

I have really enjoyed the super-fast internet CMS installed last year into our home and neighborhood. I have not had a single problem with connections or reliability. We are running two remote connections plus streaming TV into our home and all is great so far.

Kent Vander Loon  
Mt. Pleasant, MI

## Already have our fiber internet service?

### Refer A Friend - earn free service!

Just a quick reminder - you can earn FREE service by referring a friend or family member. Just make sure to tell your friend or family member to mention your name when signing up! After they have been an active customer for 90 days, you earn a FREE month of service!
